ON BATTLE SHIPS

MEMBERS OF GLENDALE CHRISTIAN ENDEAVOR UNION HOLD SERVICES FOR SAILORS

Sunday evening a group of young people from the Glendale Christian Endeavor Union held meetings on board two of the battleships at San Pedro. John Makin, who has charge of the Christian Endeavor Sailors' Rest at San Pedro made the preliminary arrangements. The party included Ethel Preston, president of the local union, Helena Richardson, Nancy St. Clair, Carol Duncan, of Glendale, Milo and Arthur Jamison, Chester White and Otto La Porte of Eagle Rock. They went by auto to the port city and were met at the wharf by Mr. Makin and San Pedro friends who took them in a launch to the "Vermont," where some of the party boarded the ship, the rest going on to the "Seattle," where they were well received. They reached the vessel about 7 p. m. and waited until 7:30 when the colors were lowered, a pretty ceremony, while the band played "Star Spangled Banner." They then repaired to a lower deck where there were accommodations for a religious service and where there was a piano. Chester White presided at the piano and Milo Jamison led the meeting. The room was crowded with sailors and as they have had no chaplain since the ship left Hampton Roads it appeared to be the first service of the kind they had had since that time. The sailors apeared to enjoy it greatly. They joined in the songs and expressed their appreciation after the meeting ended. One of the sailors stated he had been president of a Christian Endeavor League before entering the navy. The party then came back to the wharf on the ship's launch, and returned home.

HONEY CROP ABOVE AVERAGE THIS YEAR

The busy bee has been doing its full duty this year and there have been some abundant yields among Glendale apiarists. The crop of the United States was 92.1 per cent of normal on July 1st. It is estimated that the yield of surplus honey per colony was 25.8 lbs. and that about one-half the annual product per colony was realized by July 1st. At the same date in 1918 the estimated surplus was 21.4 lbs. per colony and in 1917 only 13.5 lbs. The high condition of 92.1 per cent of normal on July 1st of this year compares with 86.7 in 1918 and 86.3 in 1917. The little bee, like the hen, is one of the standbys of this great country.

EPIDEMIC OF THIEVERY

There seems to be a regular epidemic of thievery in Los Angeles and vicinity these days. Many autos have been stolen lately and two very daring robberies of stores have been reported. A jewelry store in the Alexandria Hotel building was robbed of many thousands of dollars worth of rings by burglars who cut through a show window some time in the night, though the store was brilliantly lighted. In San Pedro Monday a drug store was robbed of goods and cash in broad daylight and the perpetrators got away safely.

TOURING CALIFORNIA

FRANK KUNTZNER RETURNS FROM SIGHT-SEEING AMONG MOUNTAINS AND VALLEYS

Mr. and Mrs. Frank Kuntzner and son, Burton, and their friend, Mr. Pittner have returned from a two weeks' outing in which they visited Bishop and the mountains beyond, the chain of Mammoth lakes and towns of the San Joaquin and Sacramento Valleys, Fresno, Stockton, Sacramento, etc., and also took in Lake Tahoe. Mr. Kuntzner was more impressed by Stockton than any other city of its size he saw while away. Business is booming there, he says, and the town is beautifully kept. It is much more attractive to his way of thinking than Fresno, which is also a hustling metropolis. There is a reason for prosperity because the land around Stockton is highly productive—a rich farming country. But after all, he saw no place which appealed to him as superior to Glendale for residence and all around purposes. He says the difference between the north and the south in the appearance of towns is most marked. None of them are kept up as are Glendale and other suburbs of Los Angeles.

He saw no evidences of water shortage in the valleys mentioned and says they have more than they know what to do with up there. All the way he saw it running in the ditches along the roads.

BACK FROM TENT CITY

MR. AND MRS. RALPH MEEKER AND FAMILY RETURN TO GLENDALE FROM SAN DIEGO

Mr. and Mrs. Ralph Meeker and family returned this (Tuesday) morning from their annual outing at Tent City, San Diego, where they have been going for the past ten years. This season their stay was prolonged for five weeks. Mr. Meeker was very tired when he left Glendale and Mrs. Meeker was in ill health, but both have returned brown and rugged. Mrs. Meeker says she spent several hours a day swimming in the bay and her muscles are hard and firm as a result of the fine exercise. The same report is true of her children, her little daughter Evelyn having developed into one of the finest child swimmers there.

They also had a delightful time socially, Mrs. Meeker meeting so many old friends from the days when she lived in San Diego that but for her children to remind her of the passing years it would have seemed like turning the clock back for that interval.

They were likewise fortunate in being able to participate in the reception to the Pacific Fleet and the festivities arranged in its honor. Through the invitation of one of the officers of the fort they had opportunity to view it from a special point of vantage when it first showed up on the horizon, and to later board one of the battleships. They also saw it at close range when the warships entered the inner harbor. San Diego served lunches prepared by the ladies of the city, and thirty barrels of lem-

APRODUCTIVE MINE

JOHN J. GRAF OF GLENDALE HAS STRUCK IT RICH IN NEVADA MINE

John J. Graf of 120 West Elk avenue has a bonanza in the shape of a mine in the copper basin, nine miles west of Battle Mountain. He showed the Evening News staff a small chunk of ore taken from the mine which assays as follows, per ton: Gold, 1 oz., value $2.07; silver, 133.9 oz., value $147.24; copper, 1 per cent, value 44c; lead 80.2 per cent, value $80.20. This makes the total value of the assay $229.95 per ton. Mr. Graf is general manager of the project, which is known as the Gold Top Mining Company, but as he has a trustworthy superintendent in charge he is enabled to stay at home most of the time and look after the interests of the company at this end of the line. They have already sunk their shaft 145 feet at an angle of 45 degrees and bored a lateral tunnel in 600 feet; they have their mill installed and are putting in a new pumping system, also a compressor with power to correspond. They expect to be taking out the ore in quantities soon. The company is capitalized at $500,000 and there is no stock for sale. The members of the company consider they have a regular bonanza and propose to hold on to their interests and pull down the profits themselves.

MORGANS AT HOME AGAIN

Mr. and Mrs. Ernest Morgan and son Erick have returned from an outing at Laguna Beach where they were residents of the tent city. They report the canvas city thronged with visitors and that the tent they vacated was occupied before they had been away from it half an hour. They were fortunate in being there when the Pacific Fleet arrived in California waters. It came close in at that point and they saw it splendidly from the bluffs. They also boarded the ships at Venice after their return. Mrs. Morgan is looking daily for the arrival of a niece, Miss Kohler, from Oakland, who will be her guest for some time.

AUTOMOBILE STOLEN

V. M. HOLLISTER LOSES FORD MACHINE PARKED IN FRONT OF ELKS' CLUB HOUSE

V. M. Hollister, of the Valley Supply Company, this city, had the misfortune to have his Ford automobile stolen Monday night from in front of the Elks' Club House where he left it while attending the lodge meeting. As yet he has no clew to its whereabouts although the police and detectives of the Automobile Club are working on the case. The machine is insured so he will be reimbursed if it is never recovered, but meanwhile it is a great embarrassment in his business to be without it.

LABOR'S REPLY AWAITS GOMPERS

OFFER OF PRESIDENT WILSON APPEARS NOT TO BE SATISFACTORY TO WORKERS

(Special Service to Glendale Evening News)

WASHINGTON, Aug. 26.—The nation awaits anxiously organized labor's answer to President Wilson's appeal for a truce in industrial disputes. The eyes of the labor leaders are turned towards Gompers, due to arrive in New York from Europe. A meeting of the executive council of the Federation of Labor is scheduled to take place soon after Gompers' arrival.

It is the general belief here that the shopmen will take another strike referendum on the President's reply before acting.

CLEVELAND, Aug. 26.—"Miserly" and "inconceivably small" were the characterizations of two leading union railroad workers to officials here regarding President Wilson's offer.

NEW YORK, Aug. 26.—Gompers was the first man down the gang plank when the George Washington docked at Hoboken this noon. A crowd assembled on the pier cheered the labor leader. A group of local labor leaders surrounded Gompers.

CONCESSION TO SHOPMEN A PRECEDENT

DIRECTOR GENERAL HINES INDICATES SAME TERMS WILL BE GIVEN OTHER UNIONS

(Special Service to Glendale Evening News)

WASHINGTON, Aug. 26.—Director General Hines indicated today in a letter to H. O. Wharton, Chairman of the Railroad Wages Board, that the government's concessions to other unions would be the same as those given the shopmen.

WILL REJECT COMPROMISE AGREEMENT

BELIEF THAT SUCH WILL BE THE VERDICT OF 15,000 COAST TELEPHONE OPERATORS

(Special Service to Glendale Evening News)

SAN FRANCISCO, Aug. 26.—High officials of the District Council of Electrical Workers expressed today "every confidence" that the ballots of the fifteen thousand telephone operators of this coast recently voted, would reject the compromise agreement that ended the recent coast-wide strike. The vote has been only partially counted.

RECOMMENDATIONS OF FEDERAL COMMISSION

WOULD PROHIBIT PRIVATE OWNERSHIP OF LIVESTOCK AND REFRIGERATOR CARS

(Special Service to Glendale Evening News)

WASHINGTON, Aug. 26.—Recommendations that the private ownership of refrigerator and livestock cars be prohibited, were contained in a report made by the Federal Trade Commission today. They declared that all such cars should be either acquired and operated under government control or be owned by the railroads and operated under a government license.

MORE TREATY AMENDMENTS

FOREIGN RELATIONS COMMITTEE WOULD AVOID RESPONSIBILITY FOR EUROPEAN BOUNDARIES

(Special Service to Glendale Evening News)

WASHINGTON, Aug. 26.—The Foreign Relations Committee has again amended the peace treaty by adopting Senator Fall's proposal to eliminate the United States from membership in the commission which is to trace the boundary between Belgium and Germany. By a vote of 9 to 7 the committee struck out the words "and associated" from article 35. This article creates a boundary commission of seven of which five shall be appointed by the "principal allied and asociated powers." The elimination of the words removes the United States which during the war was known as an "associate" and not an entente ally.

MAIL MOVED BY MOTOR VANS

EIGHT TONS CARRIED TO SAN DIEGO TODAY BY ARMY AND PRIVATE TRUCKS

(Special Service to Glendale Evening News)

LOS ANGELES, Aug. 26.—Army and private trucks were called into service today to aid in moving the huge amount of mail that has collected here on account of the strike. Eight tons were sent by truck to San Diego this morning.

STRIKING MINERS LEAVE NEVADA FIELDS

RENO, Nev., Aug. 26.—Striking miners from Tonopah, Divide, Virginia City, Ely and other mining districts are deserting the gold and copper fields by the hundreds. Westbound trains are crowded with the miners. The mines are shut down and both mine owners and miners maintain a firm, uncompromising attitude.

LOCAL ELKS MEET

APPOINT MEMBERS OF IMPORTANT COMMITTEE AND TRANSACT OTHER BUSINESS

The meeting of Glendale's Elks' Lodge Monday evening was an ordinary session barring the transaction of a few items of business, one of which was the naming of members of the Investigating Committee of fifteen for which the amended by-laws of the lodge make provision. The intent is to have the committee composed of representative lodge members before whom all applicants for membership will appear before the application is submitted to the lodge for vote. The new committee is composed of the following members: Ten from Glendale—Francis E. Gilman, Stanley Frentz, Willis M. Kimball, Clinton L. Booth, Bert P. Woodard, A. T. Cowan, V. M. Hollister, E. U. Emery, George T. Paine, Irving H. Oliver; five from Fillmore—C. W. Hawthorn, Owen N. Peterson, W. C. Buchman, L. C. Forest and G. W. Sturgiss.

Announcement was made that the bowling team is to play the team of Lodge 99, Los Angeles, tonight (Tuesday) in the Glendale alleys. For this reason Ladies' Bowling Night has been postponed until Wednesday evening.

A delegation headed by Exalted Ruler Bailey was present from Whittier and tendered an invitation to the officers and drill team of the Glendale organization to visit Whittier the 16th of September and put on initiatory work there, which invitation was accepted. The delegation also asked for details of the plan under which the Glendale Elks' Club House was financed, as the Whittier Lodge is contemplating the erection of a new lodge home in the near future. Exalted Ruler Bailey stated that its membership now numbers 427.

Local officials and the drill team will visit Santa Monica Lodge Thursday evening to put on initiatory work, and they have also accepted an invitation to go to San Pedro on the 8th of September for similar work. Officials welcome these opportunities for practice preliminary to the contest at the State Meeting which comes off at San Diego October 8th to 11th, for which the local lodge has enrolled in the hope of bringing home the banner.

The bowling team has also enrolled for the state contest. There is great interest in the San Diego meeting and seventy-five rooms have already been engaged at Hotel Grant for the use of officials and members during the convention.

ATTEMPT TO MAIM OR KILL MOTORMAN

A resident of Eagle Rock, who was the guest in a Glendale home Monday told of a diabolical attempt to injure motormen on the L. A. Railway line into Eagle Rock. A heavy weight was suspended from the trolley line after dark, swinging just low enough to crash through the front window and strike the motorman in the face, blinding and possibly killing him. By great good fortune, the first motorman to encounter such an obstruction was looking out of the side door when the weight crashed through the window, and thus escaped injury. He warned other motormen as soon as possible to look out for similar devices. It is strange to what depths of infamy men usually mild and peaceable will descend when the winning of a strike is involved.

BRAVERY IN ACTION

BERT VAN OSDOLL RECEIVES CITATION FROM GENERAL PERSHING FOR GALLANTRY

Mr. and Mrs. W. M. Van Osdoll of 612 East Elk Ave. are proud parents and with good reason, for their son, Bert Van Osdoll, recently discharged from army service with the rank of sergeant has received a citation signed by General Pershing for bravery and galiantry in action. He was in Company E, 364th Infantry, and went over the top in Flanders and also in the Argonne in France. Because he had been severely wounded in action he was "tagged for the hospital" and taken to a First Aid Camp but during the night he removed the tag, escaped from the camp and joined his company which he heard was going over the top again the next morning. In the confusion his action was not noticed. He was again wounded in that battle and because of his persistence in exposing himself to the fire of the Huns in spite of his wounds, he has been given this citation.

THEN AND NOW

J. W. M. BURTON COMPARES RAILROADING 20 YEARS AGO WITH PRESENT CONDITIONS

J. W. M. Burton, who has spent the greater part of his life as a railroad man and who like all men who have once been in the game has been uneasy to be out of it, is congratulating himself on not having responsibilities in connection with the present situation. He admits the outlook is very serious and the strike a great blow to the business prosperity of California through the destruction of perishable property, the holding up of supplies needed to keep business going, the possible shutting down of all canneries and manufactories because of failure to get raw materials and the unemployment that would result.

Mr. Burton says the information that has come to him through his railroad connections indicates that the strike is likely to spread over the whole country. Labor wants government control of railroads. The corresponding secretary of one of the labor organizations told him they had written the government they were not asking for higher wages, they wanted the high cost of living cut. That would have to be done on or before October 3, 1919, they insisted, or every railroad in the United States would be shut down. The P. E. strike here has, he thinks, precipitated the crisis.

Mr. Burton began his railroad experience at eighteen when he quit school and saw for the first time an electric car at Huntington, West Virginia. It fascinated him and he hunted up the president of the road and asked for a job. The president sent him to the shops to learn from the ground up, and by the time he was nineteen he was superintendent on the old Richmond & Danville line from North Carolina to South Carolina. Then when he went out with a train he had to stay with it until he brought the train in whether it was twelve, sixteen or twenty-four hours. Now you are liable to a fine if you keep trainmen at work beyond sixteen hours.

Mr. Burton continued railroading for more than twenty years always with electric lines except for a brief interval when he was chief electrical engineer of the Wisconsin Central. He it was who built the Glendale-Montrose line here; but it was while he was Superintendent of Construction

(Continued on Page 4)

DR. STEELMAN HAPPY

Dr. C. Stuart Steelman is congratulating himself on having beaten the strike by one day. The special lenses for his new stereoscopic camera have been on the way from the east for three weeks. They were put into the hands of the express company just in time to get caught in an express strike, but were eventually released and got here just before the local steam railway strike went into effect. The assembling of his camera now awaits the focusing barrels which he is making himself. He hopes to have them ready and the camera adjusted for testing out by the last of the week and to be able to give a public demonstration very soon.

CAMP ESTELLE

MRS. A. S. CHASE HAS DELIGHTFUL WEEK WITH 2 FRIENDS IN Y. W. C. A. RESORT

Mrs. A. S. Chase, of 400 Riverdale Drive, has just returned from a delightful week's outing at the Y. W. C. A. camp in San Antonio Canyon about two miles beyond Camp Baldy. She found it a charming place, the land and properties of which were the gift to the Y. W. C. A. of Mrs. Doheney, wife of the oil magnate, for whom it has been named "Camp Estelle." Mrs. Chase was accompanied on the outing by Mrs. Charles Tye, of Hollywood, whose husband conveyed them in his auto which he drove clear to the camp. Both ladies are special friends of Miss Bess Hare, who is the hostess at Camp Estelle, and quite apart from the joy of the outing was the pleasure of the three friends in being together. The site is a beautiful one situated between two mountain streams bordered by poplars and other mountain timber. While they were there the camp took an early morning hike to San Antonio falls where they cooked their breakfast. It is near Ice House Canyon, which is watered by a still larger stream and in that canyon a good many pretty summer homes have been built. The ladies returned by stage to San Antonio Heights where Mr. Chase met and brought them home by auto.

GLENDALE, CALIFORNIA, TUESDAY, AUGUST 26, 1919

PACIFIC ELECETRIC SERVICE IMPROVING

It is encouraging to learn that the service is improving on the Pacific Electric line between Glendale and Los Angeles. Trains are now running on almost schedule time during the daylight hours. It is to be regretted that in this age and state of intelligence the company feels it unsafe to operate trains in the night time. Is it true that there are men who will take advantage of darkness to make attacks upon those who are making it possible for the public to get means of transportation to and from work? It should be the spirit of every loyal American to do all possible to keep the wheels of industry steadily turning. The man who blocks the wheels of legitimate progress, whether he be employer or employee, is not doing the right thing toward humanity.

It is not many months since the whole country was called upon to save,—yes save until it would hurt the one saving, and now right on the heels of all this pinching and saving comes a spirit of wilful waste and destruction. Twelve months ago the government said we must save or be subject to the fines of the federal courts and now the government has been forced in the past few days to look on and witness the most wholesale destruction of fruits and vegetables that could be possible.

There is need of adjustment somewhere,—something is out of balance. Who is the statesman that has the ability and backbone to suggest a remedy to get affairs back into proper balance? There is an opportunity for a leader to come forth from the masses and make his presence be recognized.

REVISE CALIFORNIA SCHOOL LAW

It is stated that between 200 and 300 school districts of California may be deprived of schools because of their failure to comply with the provisions of the law requiring at least 120 school days in each year.

This may be law. It hardly seems common sense. The schools in many parts of the state were closed for weeks by the influenza epidemic. Hundreds of children were killed or weakened by the disease. All suffered the deprivation of school work.

Now the suggestion is made that as a further penalty for the epidemic for which they were not responsible, the children are threatened with the loss of another year of school.

The absurdity of this is apparent We can not speak for the law. But one thing is certain; the people of California ought not to be deprived of the education of the children this year simply because a wave of sickness swept the state last year.

If the law makes it impossible for these schools to secure funds, then the law must be changed, even if a session of the legislature is required for that purpose.

It does seem that even the unbending provisions of the law should be sprung a little if necessary to allow common sense and justice to prevail in a matter where through no fault of their own people already are the victims of one misfortune.—Exchange.

SELF SATISFIED

You can tell a self-satisfied man,
Wherever he happens to be,
For his face says as plain as it can,
Don't you envy a fellow like me?
No matter how little he knows,
He's convinced he's as wise as a judge,
As he struts like a cock when it crows,
And at other folks' wisdom cries "fudge!"

War's tumults never bother his head,
He's content to let other folk fight;
Cares naught if they raise the price of bread,
So long as he has plenty to eat.
Volcanoes may cities destroy,
And thousands of lives may be lost,
But it brings neither sorrow or joy,
For he don't have to pay what it cost.

He never worries when folk go on strike,
Others' troubles he views with a smile,
They may go to old nick if they like,
Or they'll haply learn sense in a while.
He's selfish, unfeeling, and vain,
He's no love for his poor fellowmen,
He thinks they've no right to complain,
For they've none to blame but thersen.

So he simpers and sidles through life,
Convinced it's a chap's wisest plan,
To steer clear of all trouble and strife,
And to be a self-satisfied man.
Let other folk think what they will,—
Despise him and call him a drone;
He grins more self-satisfied still,—
Content if they will let him alone.

But when he is called up from below,
To account for his stewardship here,
If he's naught but his self-love to show,
He'll not feel quite satisfied there.
Far better a man who has fought,
And worked for his fellowman's good;—
Though his struggles amounted to naught,—
He has proved that he would if he could.

F. BOOTH,
318 E. Broadway, Glendale, Cal.

August 25, 1919.

WORLD PEACE

CAN ONLY BE BROUGHT ABOUT BY DEVELOPMENT OF HUMAN HEART, SAYS ELDER SNYDER

A big audience was faced by Elder G. A. Snyder, formerly pastor of the Seventh-Day Adventist Church in this city, but now of Alhambra, who addressed the big camp meeting at Western and Melrose avenues, Hollywood, Monday, and his discourse made a deep impression upon his hearers. That permanent, universal peace in the world depends to a large extent upon whether there are enough men of good will in this world to maintain that peace, that Christ's kingdom is not a temporal one, and that world-righteousness never can be brought about by civil law, were statements contained in his address.

Mr. Snyder showed that he is unalterably opposed to a mixture of religion and politics. Discussing the passing of religious laws in a futile attempt to make men good, he said such a program is out of harmony with the principles of Christianity. He read the words of Christ, addressed to Pilate, "My kingdom is not of this world." He called attention to the historical records of the persecutions of the "Dark Ages" to show the results of a union of church and State by the enactment of religious laws.

"Not because the founders of the American republic were infidels or atheists, but because they saw that the religion of Jesus Christ was too high and exalted for them to meddle with, far above the realm of politics, did they divorce religion from politics. In that action the church received more help than in anything else that had been done for many years. In this government was seen the exemplification of what civil power should be; where every man is governed in religious matters by the dictates of his own conscience.

"We hate Bolshevism with its terrible visage, and yet it is simply the outgrowth, the fruitage of what has been taught in the world for 40 or 50 years. People have been taught that there is no law."

INDIANS TURNED THE TRICK

A Glendale soldier boy recently returned from overseas tells of a novel use our Indian soldiers were put to while hostilities were at their height. More than 10,000 of these wards of Uncle Sam enlisted for service and they made the finest kind of soldiers. They were obedient, quick to learn the ways of war and very resourceful. For a long time in the summer of 1918 the American and Allied commanders were seriously annoyed at the continual "listening in" of German scouts on their telephone lines, whereby they gained knowledge of important orders passing back and forth. They would send out scouting parties in the dead of night to tap the lines and take off messages. Of course, our commanders did the same to their lines, but each side tried its best to checkmate the other's activities in this line. Finally a shrewd commander of an Indian detachment suggested that the most intelligent of the tribesmen be selected to transmit and receive the messages in their own language, which, of course, no German could understand. This solved the problem perfectly and the leaks were stopped.

D957

SUMMONS

Action Brought in the Superior Court of the State of California, in and for the County of Los Angeles and the Complaint Filed in Said County of Los Angeles, in the Office of the Clerk of Said Superior Court

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF LOS ANGELES.

Truman C. Armstrong, plaintiff, vs. Angelita P. Armstrong, Eddie Scott, Co-res., defendant.

The People of the State of California Send Greetings To:

Eddie Scott, co-respondent, last known address, 647 Kohler St., Los Angeles, Defendant.

You are hereby directed to appear and answer the First Amended Complaint in an action entitled as above, brought against you in the Superior Court of the County of Los Angeles, State of California, within ten days after the service on you of this Summons—if served within this County; or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said plaintiff will take judgment for any money or damages demanded in the Complaint, as arising upon contract or said plaintiff will apply to the Court for any other relief demanded in the complaint.

Given under my hand and seal of the Superior Court of the County of Los Angeles, State of California, this 27th day of June, A. D., 1919.

(Seal) H. J. LELANDE, Clerk.
By E. A. WICKERSHAM, Deputy Clerk.

Marcus A. Woodward, Attorney and Counsellor-at-Law, 233 San Fernando Bldg., Los Angeles, California, Attorney for Plaintiff. 294t2Sat

Personals

Mr. and Mrs. J. A. Endicott, of 308 North Central avenue, today is entertaining Oregon relatives at Catalina.

Miss Emily Van Osdoll has gone to Catalina to spend a two weeks' vacation.

W. P. Spear, of Taft, who has been spending a two weeks' vacation with friends in Glendale, returned to Taft Monday morning.

Reports compiled by the Associated Charities of Los Angeles indicate that the charitable work done by the Glendale Elks' Lodge surpasses that of any other lodge in the State.

Miss Brittan, who conducts the Glendale Commercial School, received word yesterday of the death of her brother. The school was closed for the day.

Mr. and Mrs. Frank Monaghan of 520 North Louise street are leaving for a two weeks' outing at Balboa Beach.

O. G. Rudie, who recently bought the Wm. Woods place at 546 West Broadway, is carrying his right hand in a sling as a result of getting it caught in a feed chopper, severing one finger and mutilating two others.

Rev. E. Hoskyn, of 340 West Elk avenue, who deserted his trade as a carpenter long years ago to enter the ministry, has reverted to the old job now that he has retired from active preaching. And he certainly is doing his bit in this line by helping to abate the famine in houses.

Mr. and Mrs. Jean Birney of El Centro, formerly of Glendale, were luncheon guests of Mrs. Lorena Cramer Saturday. They are now on their way to Winslow, Ariz., where they will make their future home. Mrs. Birney before her mariage was Miss Ludie Spear.

Mr. and Mrs. James McBryde, Mrs. S. J. Mosher and Miss Ella Mosher took a week-end trip to Pomona where they visited relatives and brought back two little girls to spend a week with their grandmother, Mrs. Mosher.

News has just been received here of the discharge from the service of Harry More, formerly a popular teacher in Glendale High School. He was a captain in the purchasing department of the air service, stationed at Washington. He and his mother are now living in New York City.

Mrs. Fannie O. Stone and two sons, Robert and Donald, of 301 East Chestnut street, who went to Providence, R. I., the last of June to visit Mrs. Stone's parents and other relatives, will be home in a few days, Mrs. Stone writes.

Mrs. Fred Pigg, of 638 North Kenwood, was sweeping one of the rooms at her home Monday, when in some manner she struck one foot violently against a chair rocker. The ankle soon swelled to twice its size and gave her such pain that a doctor had to be called.

Richardson D. White, Superintendent of Schools, who has been in San Diego for a few weeks and who expected to get home Monday, has been detained. A telegram received by Mrs. White states that he was unable to get accommodations on any of the boats and will have to come by auto.

Mr. and Mrs. Harry Franklin, Miss Veta Franklin and C. F. Robbins motored to Camp Baldy Saturday for supper and dancing afterwards. The same party with the addition of Mrs. Frank M. Head, Mrs. Mabel Franklin Ocker and Booth Franklin attended a dancing party given Monday evening by Mrs. Harrison Coleman of Eagle Rock.

So great is the demand on regular truckmen who haul merchandise out from Los Angeles to Glendale, on account of the strike cutting off all freight and express shipments, that dealers often have to wait many hours for goods and those who are not regular customers are necessarily put off two or three days. It is always the public that suffers most from a strike.

He was hurrying along east on Broadway in his auto when he suddenly bethought himself, slowed down and stopped in front of the Evening News office. Running in he said: "Please take out my ad about that piano. The instrument is sold, thanks to you." Many others are finding that Evening News ads bring results.

Mrs. H. L. Brown, of 1037 San Rafael, has heard from her daughter, Mrs. Gould, who came to Glendale during the last illness of her father and remained here with her mother for several months after his death. She reached her home near Deer Trail, Colorado, in safety and just in time to be welcomed by the heaviest rain of the summer, a regular downpour, which was much needed.

Dr. C. S. Steelman says the people at resorts are suffering from the inconveniences of the strike. Sunday he visited Camp Baldy where his wife and children are spending a few weeks and when he came away brought seven people. The camp stages will bring them as far as San Antonio Park where they are supposed to take the trolleys but as the trolleys are not operating they are simply marooned there. He saw one lady who had been waiting four days to get away.

Southern California Gas Company
112 W. Broadway
GLENDALE 714

Mrs. Harriet and Maybelle Douglas of South Brand boulevard have returned from a pleasant vacation outing at Balboa Beach.

Mrs. Eustace B. Moore and her son Benton of South Maryland avenue will spend the week-end with relatives in Long Beach.

Mr. and Mrs. Elmer Glassburn of Palmer avenue are moving this week to Los Angeles.

Mr. and Mrs. McDonald and family of 1255 South Maryland have returned from a pleasant outing at Seal Beach.

Mr. and Mrs. Joseph Webster and their daughters Lila and Leola will be guests tonight at a little dinner which Mr. and Mrs. Ernest Morgan of 1125 South Central avenue are giving in celebration of Mrs. Webster's birthday.

It indeed gives the management of the Evening News encouragement to learn of the many kind words spoken of the News by citizens of Glendale. This plan of speaking well of your local daily to newcomers is a sure way of building up a useful newspaper in the community.

Mrs. Ella Cate has leased her home at 1250 South Maryland avenue, furnished, to parties who will take possession of it about the first of the coming month. She has taken an apartment in Los Angeles which she will occupy with her daughter Ellen and son George.

The management of the Glendale Laundry is suffering from an embarrassment of riches among the employes, so many of whom are absent at Lake Tahoe and other fashionable resorts or touring the state in automobiles that there is a shortage of hands to turn out the work. It shows that working conditions must be very favorable in the institution but it is hard on the boss.

Mr. and Mrs. L. W. Sonntag have gotten settled in their new home at 119 South Glendale avenue, and have said good-bye to Mrs. Sonntag's brother, J. N. Peterson, and family, who were their guests when they first took possession. The Petersons have now returned to their home in Davenport, Iowa. They were greatly impressed with California as a desirable place of residence and there is a possibility they may dispose of their interests n the east and come out here to stay.

CARPENTERS IN DEMAND

So great is the demand for carpenters in Glendale now that intending builders engage them weeks ahead and even advertise for them. One kindly-disposed wielder of saw and hammer even does his full 8 hours on a regular job, then works three hours in the evening on a rush job for a friend. New buildings are going up at an amazing rate in Glendale and only the failure to get material, owing to the causeless strike, can paralyze this great building boom.

STRIKE MAKES HOME COMING DIFFICULT

Mrs. Ray Sanford, of Sycamore Canyon and her daughter, Mrs. Lillian Grace Mayo, of Walla Walla, Wash., arrived at home Sunday from a visit to relatives in Hanford. The latter started for home Monday, going by boat. The two ladies had quite a time of it getting back to Glendale, on account of the strike. They came as far as Saugus on the S. P. and there the train stopped. So they came by stage to Glendale, getting off in old Tropico. A kindly autoist then gave them a lift to their destination. She had been visiting her mother for two months past.

HOME FROM CATALINA

J. R. Lockwood and wife and son Bruce of 1011 North Louise arrived at home Monday from a two weeks' outing at Catalina. They said every hotel and rooming house over there was full. The aeroplanes make an average of two trips a day carrying passengers across from the mainland to Avalon.

Advertise it, or advertise for it in the Evening News.

HENS EATING OWN EGGS

DIRECTIONS FOR WORKING A REFORM IN THE FLOCK IN THIS RESPECT

More than one poultry raiser in Glendale has complained of hens eating their eggs and wondered if there was any way to stop the practice. The following from an eminent poultry authority will be of interest to those who have had trouble from hens eating their eggs and also from biddies plucking feathers from themselves and their companions:

Egg eating sometimes becomes a serious vice, fowls becoming very fond of eggs when they have learned to eat them, and it often spreads from fowl to fowl. It usually begins through accident by eggs being broken. Be very careful to see that this does not happen. See that the nests are properly supplied with straw or other nesting material and have them darkened, so that if an egg is accidentally broken the fowls will not be likely to discover it. Supply plenty of lime in the form of oyster shells, bone, or similar substances to insure a firm shell. As soon as it is discovered that a fowl has formed the habit, the fowl should be removed, in order to prevent the spread of the vice. Once formed, it is difficult to eradicate, and the safest remedy is the death penalty.

Fowls sometimes pluck feathers from themselves and from each other, which is often caused by too close confinement, by the presence of insect pests, or by improper feeding. When some of the fowls of a flock have formed the habit slightly, a wide range with a change of diet, including a plentiful supply of animal feed, and freedom from insect pests, will usually correct the evil. Above all, see that the fowls have plenty of inducement to exercise. If the habit becomes well formed it is very troublesome and may necessitate the killing of some of the fowls in order to stop it.

DR. SILAS EVANS, SPEAKER WISCONSIN REUNION

Many former residents of Wisconsin now in Glendale and vicinity will be glad of the opportunity to hear Dr. Silas Evans, formerly of Rippon College, now the head of Occidental. Dr. Evans will be the orator of the day at the Wisconsin fall picnic, Saturday, August 30th, in Sycamore Grove Park, Los Angeles. The county registers will be open all day, basket dinners at noon and the program will commence at two o'clock, Col. Frank H. True, president of the Wisconsin Association of Southern California, presiding. The Badgers will come from all parts of our Southland and every section of Wisconsin will be represented.

BACON SALES PROGRESSING

The City Bacon Market is in full working order today at 618 East Broadway, with Mr. Brewster in charge behind the counter. There was a ton of the bacon received and it is of fine quality, though heavier than is usually sold in the stores. The pieces average about 14 pounds in weight. They are sold in the full piece or in halves, thirds or quarters when customers will combine to take a whole piece in that way. The sale will continue till 5 o'clock this evening and tomorrow if necessary to sell it all. The name of each purchaser is recorded so no once can load up on the bacon at the expense of others wanting it.

LESLIE TARR A BENEDICT

Leslie Tarr, who was discharged from the naval hospital in Gulfport, Miss., a few months ago and returned to take up his former work as reporter for a Los Angeles evening paper at an increased salary, was joined by his wife, whose existence his friends were unaware of, Monday. She was a Miss Clara Lopez and she and Leslie eloped and were married in Ocean Springs, Miss., in December last. She was unable for family reasons to accompany Leslie when he returned home, but he and his people are giving her a warm welcome.

THE CANTRELL LECTURE

The lecture in the High School auditorium by Edward Adams Cantrell Monday night was fairly well attended. The lecturer exposed the faults and inconsistencies of man-made religions and delved into the history of many of these. It was pronounced by many an intellectual treat.

EMMA S. BRAUN

Emma S. Braun died at the home of her sister, Mrs. W. C. Simpson, 512 West Doran street, Sunday afternoon, August 24, 1919. She had lived in California for two years but had been a resident of Glendale for only about six months. Her health had been frail for some time. She was born in Monaca, Pa., June 8, 1850, and besides the sister mentioned she leaves a brother in Pittsburg, Pa.

Funeral services, which will be in charge of the Pulliam Company, will be held today, Tuesday, in the Little Church of the Flowers at Forest Lawn Memorial Park at three o'clock.

Charles I. Peirce of 328 West Elk avenue has a flock of Rhode Island Red youngsters hatched March 3d. He killed one of the cockerels Monday and it weighed 5 lbs., 10 ozs. The others are all about the same size.

CLOSE INSPECTION OF TOMATO CANNING ORDERED

Local users of canned tomatoes, of whom there are many hundreds of families, will be interested in knowing that Federal food inspectors have been instructed to give special attention this season to the sanitary condition of tomato-canning factories in order that tomato products which enter inter-state commerce may comply with the provisions of the Federal food and drugs act. This is announced by officials of the Bureau of Chemistry, U. S. Department of Agriculture, who are in charge of the enforcement of that law. Tomatoes and tomato products, such as catsup, pulp and paste, are highly perishable, and unless handled at every stage according to the best commercial practice and principles of sanitation, are likely to become contaminated through partial spoilage. Foods consisting in whole or in part of decomposed material are considered adulterated. After extensive investigations of methods for putting up such products on a commercial scale, the bureau specialists have recommended methods which are not only economical and efficient from a profit standpoint, but which are best from the point of view of sanitation. Of the more than 6300 cases under the Federal Food and Drugs Act terminated in the Federal courts, about 10 per cent of them were based on tomato products. As a result of this investigational and regulatory work, the last two or three seasons have shown a marked improvement in the quality of tomato products.

MINIMUM WAGES IN CANNING FACTORIES

SAN FRANCISCO, Aug. 26.—(United Press).—Minimum wages for women and minors employed in factories and in fresh and dried fruit packing establishments recently ordered by the Industrial Welfare Commission became effective throughout California today. These provide $13.50 per week as the minimum wage for experienced women and experienced minors in these industries.

In the manufacturing industry adult female apprentices will be paid not less than $10 per week for the first three months, not less than $12 per week for the second three months, and a minimum of $13.50 a week thereafter. Minor apprentices have an apprenticeship of nine months—not under $9 a week for the first three months, $10.50 a week for the second three months, and $12 a week for the third three months.

If employers do not provide a full week's employment except during weeks in which certain legal holidays occur, they must pay an increased hourly rate or the weekly minimum wage. Home work cannot be given to women who have already performed a full day's work within the factory.

Women in fruit packing establishments are deemed experienced when they have worked two weeks, during which apprenticeship $10 per week is the minimum. Piecework rates may be fixed by the individual establishments providing these earn experienced women at least 28 cents an hour.

In the dried fruit industry, women may not work more than eight hours a day nor more than 48 hours in a week, nor over six days a week. In emergencies in fresh fruit packing, women may be employed in excess of three hours if they are paid 35 cents an hour for the first four hours and a minimum of 50 cents an hour after the twelfth hour.

THEN AND NOW

(Continued from Page 1)

and General Manager of the third-rail line between Jackson and Battle Creek, Michigan, that he and Charles Shattuck of this city came together. Mr. Shattuck also began railroading as a boy but on the steam railroads.

The stories they can swap about old times fifteen and twenty years ago and conditions then as compared with now are decidedly interesting. From 1889 to 1903 the pay averaged 15c to 20c an hour and when, along about 1903, it was raised to 25c an hour the men thought they were getting big pay. They could live better then on $1.50 than they can live now on $3.00 a day.

Mr. Shatttuck told of an experience when he had just been promoted to motorman on the Michigan line referred to. The fourth of July fell on Saturday. Sunday, as always, was a busy day and Monday there was a circus in town which made traffic heavy. Saturday night he ran his car past midnight or until 1:15 Sunday morning. He took it out at 5:45 and ran it until 1:15 that night and carried out the same schedule on Monday. He declares that when men were working for 20c an hour then and every day in the week they managed better, had more, and saved more than they have now on $5.00 a day. He tells of the home he owned in a suburb of Detroit, built by John Lundy, now living in Hollywood—a substantial seven-room house with hardwood floors for which the contract was $875.00. The same house here today would easily cost $4,000. The majority of carpenters were then getting $2.75 and $3.00 was big wages. Lumber was $8 per thousand.

Commenting on these statistics, Mr. Burton said: "Today if you get a carpenter to do a job for you he is paid $1.00 an hour. I have just been talking with a man from Texas who tells me that at Ranger, Tex., they are paying labor $10.00 for an eight-hour day in the oil fields. Carpenters get $15.00 to $25.00 a day and the cost of living is very high.

Speaking of the lure of the railroads, Mr. Burton said: "I was talking last week with Paul Shoup and with Mr. Smith, the general manager, and they said: 'How can you keep away from railroading?' I had to admit the itching to get back into it whenever I am around the headquarters of a road. Mr. Smith said he was once offered the presidency of one of the banks of Los Angeles and after considering it a week, turned it down. He had been railroading since he was fourteen years of age. He is now the General Traffic Manager of the Pacific Electric."

CHARGED WITH COUNTERFEITING

(By United Press)

PORTLAND, Ore., Aug. 26.—A Federal hearing today will determine whether Joseph E. Riley and his wife shall be tried here or in San Francisco on a charge of counterfeiting.

Riley, 32, and his attractive 18-year-old wife, Dorothy Tidd Riley, were arrested here early this month by secret service agents. These agents reported a counterfeiting outfit, and a quantity of gold and silver bullion were found in their rooms. Federal authorities claim Riley heads what they call "America's most dangerous band of counterfeiters," who have been operating on the Pacific coast, particularly in California, for several years.

It is also charged Riley trained young men in the counterfeiting game, regulating their operations as a chief would his tribe. Seven of his pupils were captured in San Francisco in 1916, it is said, and sent to prison. The present Mrs. Riley, sleuths say, was taken in the same raids and sent to a reform school. Following her release, Riley married her and brought her here. Charges of bigamy and desertion from the army are also pending against Riley, say officials.

Reports received here from Los Angeles and Sacramento since the arrest indicate that Riley's gang contemplated an early "clean-up" along the whole Pacific Coast. Frank O'Toole and his wife, two alleged members of the ring, are awaiting trial following arrest at Sacramento on charge of passing spurious money.

BLAMES HIS CHUM

SAN LUIS OBISPO, Cal., Aug. 26.—Hugh Moore, 19-year-old farmer lad from Southern Oregon, was to face trial today on charge of complicity in the murder of David Morehouse, night watchman at Paso Robles. He was arrested with Seth Burt, who insisted that he, and not Moore, fired the fatal shot. Burt went to trial last week on the same charge, growing out of an attempted store burglary.

Moore's parents are here from Southern Oregon. They hope to show their son mentally deficient, and a hard-working boy until he met Burt and ran away from Oregon with him.

Los Angeles policemen are asking for increases in pay that would aggregate $170,000 a year. The city council favors the increase, but says the money is not available. Will it be a strike of policemen next?

Advertise it, or advert'se for it in the Evening News.

BACK FROM TENT CITY

(Continued from Page 1)

onade to fifteen thousand sailors. Mrs. Meeker and Mrs. Mabel Rudy had charge of one of the barrels of lemonade and from it served 700 of the gobs. Mrs. Rudy's muscles were not so toughened by swimming as were Mrs. Meeker's and the next day she was so lame she could scarcely comb her hair.

They also attended the official reception at Hotel Grant for Secretary and Mrs. Daniels, officers of the fleet and other notables.

In all the years she has been going to San Diego Mrs. Meeker says she has never seen the tent city turn away so many applicants as it was forced to do this year when it was besieged by transcontinental tourists from almost every state in the union. One day while attending the band concert she counted automobiles carrying pennants from fifteen different states including Massachusetts, Pennsylvania and New York, and there were a great many from the cities of Texas, Arizona, Colorado, Nevada and the State of Washington. Next year the management expects to increase its accommodations by adding about six hundred tents.

During their stay they saw a good many Glendale people who came down for brief stays. In spite of the good time they have had, all members of the Meeker family are glad to be at home again.

BANQUET AT SANTA CRUZ

SANTA CRUZ, Cal., Aug. 26.—Santa Cruz today welcomed the Pacific Fleet with an aerial circus, parachute drop, automobile excursions and impressive ceremonies. Tonight, Admiral Rodman and his officers will be tendered a banquet, with Governor Stephens, Lieut.-Gen. Hunter Liggett and other prominent men attending.

Special trains will take the men to the Big Trees. Several wagonloads of fruit will be given them daily, and nightly dances and other entertainment has been provided for their visit. The fleet remains here all week.

THE DEVIL GRASS PEST

The greatest menace to beautiful lawns in Southern California is not the dry weather, an unusually cold winter or people tramping over the grass. These can easily be overcome, but the enemy it is almost impossible to circumvent is "devil grass" as it is usually called, though Bermuda grass is its trade name. It sends its roots down, some people claim, more than three feet, and if these roots are turned upside down, in plowing, they sprout at once and send their shoots upward. And oftentime this grass suddenly appears in a brand-new lawn, where the ground has been specially prepared and care taken to see that no roots of its kind are in the soil. Some lawn experts in Glendale declare that our good water is responsible; that the canyon is carpeted with seeds of this grass and they are brought down to the city in the water and thus distributed to the lawns.

THE STARTING FAD

"And the name is to be?" asked the minister as he approached the baptismal font with the baby in his arms.

"T. R. Woodrow Pershing Haig Lloyd George Bonar Law Smithers."

"Dear me!" said the minister, turning to the sexton. "A little more water, Mr. Jones, if you please!"
